

New!!

Rainbow Pro

- > Color camera works with monitor
- > Full color at Great value
- > Adjustable color select for added contrast
- > Auto focus and manual override
- > Simple and easy-to-use-controls
- > 17" screen for easy reading and writing

Remember reading for pleasure? Writing checks without difficulty, or doing close handwork without straining? The Rainbow Pro makes it all possible. This full-color system provides magnification up to 50X, and an oversized reading tray accommodates newspapers, magazines, 3D objects and even large photo albums.

The **Rainbow Pro** system even provides special viewing modes for individual eye conditions, and auto focus with manual override is available as well.

Different viewing modes and features help you enjoy a range of activities:

- For reading, use white letters on a low-glare black background
- Flicker reduction allows for longer, more enjoyable reading sessions
- Color photo mode lets you view photos, illustrations and objects easily
- Use the high-contrast color setting for materials with photos and text
- Continuous auto focus with manual override

Telesensory >With over 40 years of success, Telesensory continues to be the company people trust and depend on for the highest quality low vision solutions and dedicated personal customer service.
